COMPETITIVE, VISIONARY AND EVOLVING GLOBAL EXPERIENCE

An accomplished **strategic marketing** and **business development** professional who has successfully applied a diversity of well honed skills, talents and experiences to accomplish practical and value enhancing results across the globe. Expanding upon a solid advanced analytical perspective and broad approach in understanding critical industry issues, this unique individual has established international success and reputation. Strong communication skills and the ability to present ideas clearly, cohesively and tactfully have influenced senior business leaders in the strategic direction of their companies, and have further been applied within post-secondary teaching roles.

Expertise

- ✓ Negotiation and Influencing Skills
- ✓ Team Management
- ✓ Contract Development
- ✓ Marketing Communications
- ✓ Public Presentations
- ✓ Educating and mentoring
- ✓ New Business Development
- ✓ Product Positioning
- ✓ Market Segmentation
- ✓ Advanced Statistical and Econometric Modeling
- ✓ Financial Modeling and Valuation
- ✓ Competitor Benchmarking

Key Accomplishments

Successful negotiation through collaborative efforts and effective process management, while tactfully balancing competitive bids

Illustrates value of industry and technical knowledge through a strategic marketing background, and ability to interact among cultures

Ability to quickly adapt skills and experience to corporate development in any industry

Proven ability to influence senior managers and effectively act upon advice through implementing practical commercial initiatives

Ability to expand analytical background into more broad strategic business services

Proven extension of advanced analytical skills through information coordination and development of visionary thinking

Ability to develop a competitive product positioned in the global market, based on true understanding of industry needs

Divested North American and Chinese corporate assets for Sherritt International as part of a restructuring initiative - generated net revenues of \$10m. Coordinated team effort to explore operating improvements and environmental liabilities prior to disposal

Implemented innovative product marketing opportunity for largest Chinese stainless steel trading firm Rising Steel - initiated a trial campaign, and coordinated supply negotiations with overseas steel producers. Result - increased client's trading volumes by 60%, or \$75-100m per annum, and product today represents 1/3rd of the Chinese stainless steel market

Identified synergies and prepared business plan and restructuring proposal for the acquisition of a technology research firm. Negotiated the terms of the acquisition - profit potential of \$10-20m over 5-10 year time frame

Through collaboration with experts, influenced the principals of the proposed US based Niagara Stainless steel project on operating and product strategies, and identified and secured export off-take agreements, valued in excess of \$100m, for debt financing purposes

Successfully secured single client strategic management consulting services for Brook Hunt – individual projects valued at \$175k

Initiated detailed market segmentation and product positioning analytical framework for Inco Limited - successfully influenced senior management thinking on future growth strategies and value enhancing propositions for customers

Implemented a stainless steel consulting program for CRU International through the development of a major multi-client study - revenues today are \$1m per annum and has increased CRU's profile in the steel and alloys industry
