

JOHN K. DUGAN, CPA
Retired Partner - PwC
Duganj63@gmail.com

A trusted management consultant and healthcare financial management expert with a unique blend of financial, operational, regulatory compliance and strategy experience across Health Industries organizations. John has a desire to work with Business Schools on enhancing course curriculum with leadership developmental programs and programs that are focused on enhancing emotional intelligence of students to prepare them for successful management careers.

WORK EXPERIENCE

John Dugan is a senior executive consultant with over 30 years of diverse healthcare experience across health industries. As a Senior Partner at PwC, John served as a trusted advisor to numerous clients for over 26 years. His clients represented national and regional hospital systems pharmaceutical & medical device companies, national payer accounts, and post-acute care providers. During his career at PwC, John served as a member of the PwC Health Industries Advisory Leadership Team. He has also served as the Health Industries US Markets Leader responsible for penetration of platforms and solutions across priority accounts. His depth of experience spans **enterprise strategy & deals, technology enabled transformation, regulatory compliance & litigation, finance & reimbursement, and enterprise performance improvement.**

John has served on several boards in the greater Philadelphia area. These boards include higher education, health care, youth programs and professional trade associations. Through these varied experiences, John has been able to deepen his skills and experiences with corporate governance, audit committee leadership, strategic planning, regulatory compliance and community engagement.

John is passionate about teaching and mentoring. John has served as a Master Partner – working closely with individual partner development in the PwC Leadership Development Program. John has also been a guest lecturer on Leadership and Personal Branding at Temple University and LaSalle University and has been a frequently sought after educator on numerous health care related topics.
